### DETAILED ACTION

1. This office is in response to Amendment filed on May 04, 2004.
2. Claims 1-7 have been amended.

#### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this

Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 1-7 are rejected under 35 U.S.C. 102(e) as being anticipated by Alperovich et al. (6,459,680).

Regarding claims 1-7, Alperovich discloses an optimal use of logical channels within a mobile telecommunications network, a method for allocation of a temporary mobile station identifier, characterized in that the method comprises steps, in which the network checks, if a stage change to the second state is needed for a mobile station (see fig.5, element 50, 60, 30, 520, 20, col.7, line 41-col.8 line 50)); a controlling radio network allocates a temporary mobile station identifier for a mobile station if the network determines that a state change to the second state is needed (see fig.5, element 50 and its description); and said

Art Unit: 2683

temporary mobile station identifier is indicated to said mobile station (see fig.4, steps 400, col.5, line 54-col.7, line 40).

***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
